Chicago's Former Rough Rider

Will Supplement Landon's Challenge to Democrats

WILL EXPLAIN HIS STAND

Casts of Star Entertainers To Perform on Two Platforms in and Out of Stadium

By the Associated Press

CHICAGO July 30—Col. Frank Knox, Chicago newspaper publisher and former rough rider, takes the center of the political stage tonight to accept the Republican vice presidential nomination and amplify the party's 1936 challenge.

The Chicagoan will be notified in ceremonies beginning at 7:30 o'clock (EST) at the big Chicago stadium, one of the world's largest covered auditoriums.

His speech in reply was expected by party leaders to be the second half of the Republican party's statement of aims in the current campaign and a forecast of what it will do if installed in place of the Democratic administration.

Supplement Landon Talk

It will supplement the 45 minute address delivered last week in Topeka by his running mate, Gov. Alf M. Landon of Kansas.

The ceremonies will last about two and one half hours. The principal oration will be heard by some 60,000 on the scene in the estimation of Chairman Chauncey McCormick and by millions of radio listeners.

Partly in honor of Col. Knox, veteran in the Spanish American and the World wars, the committee on arrangements designed a motif of Americanism, constitutionalism and the flag for the notification ceremonies.

The intention McCormick said also was aimed at signifying the party's stand on an American way of government.

One stage was set up inside the auditorium and another outside. When the program opens two casts of stage radio and opera stars will perform on both the stages.

To Sing Patriotic Aids

Community singing of patriotic airs was planned for the first hour and a quarter. At 8:45 o'clock the candidate will be escorted to the stadium by the 52 members designated at the Cleveland convention of the notification committee.

Edward A. Hayes of Decatur III, former national commander of the American Legion, will introduce Chairman John D. M. Hamilton of the Republican national committee. Hayes was the pre-convention campaign manager for Col. Knox.

Hamilton will introduce Sen. Frederick Stewert of Oregon, key noter of the national convention who will make the address formally notifying Col. Knox that he is the party's choice.

Then about 9:30 o'clock Col. Knox will respond.

Party notables assigned to places on the platform included former Vice President Charles G. Dawes of Chicago chairman of the honorary executive committee for the event.

DRIVE FOR LINCOLN PARK STADIUM FUND RENEWED

Softball Commission Seeks Support of Civic Organizations for WPA Project

Efforts to raise \$1,500 for use in connection with an approved WPA project to construct a new concrete stadium at Lincoln park will be launched today. Members of the Marion softball commission decided last night at a meeting at the Y.M.C.A. It is estimated the project would provide employment for 40 to 50 men for approximately four months.

Municipal Judge W. R. Martin, president of the commission and Deputy Sheriff Marion Hinklin were named to contact local civic organizations and the newly formed WPA Workers' League to enlist their support in the money raising drive.

It was reported at the meeting that the commission has again been assured a \$1,000 pledge which previously had been reported with

Water Rate Fight Opens As Utilities Commission Gets Company Appeal

Protest Against Proposed Lower Schedule Is Submitted Day Before Expiration of Old Rates, Reduction Called "Confiscatory, Unjust"

A controversy over the existing rates about one fourth

The water company asserts in its appeal to the commission that the rates are confiscatory, unfair, unreasonable and insufficient to yield a reasonable return according to Associated Press report of filing of the appeal.

It added this in order to avoid possible irreparable loss it would continue to charge the old rates under bond pending a decision on the appeal.

Monthly Bond Set

George Whisell, manager of the Marion Water Co. who filed the company's appeal to the commission said following his return to Marion that the commission had ordered the company to post \$1,250 bond monthly with the Fidelity Banking Co. of Marion during the period in which it continues to collect the present rates. This bond was explained as to guarantee refunds to water users in the event the commission later finds that rates collected beginning Friday are excessive.

The commission directed the company to submit written evidence to support its contention.

Major Frederick G. Smith when informed of the company's move this afternoon said he is not surprised.

City On Defense

City Collector Ruth E. Cachart said while the development was not unexpected, she expressed the opinion the city by passing its proposal to cut rates before the present ones expired had been successful in placing the city on the defensive. When new rates were passed 10 days ago it was the intent of the city to get the rate proposal before the commission for the water company proposed a new rate.

As matters now stand the burden of attacking the city's proposed rates rests with the company who has had the city do nothing in the way of fighting it would have been on the city to complain.

FAVORS FREE ASSEMBLY

Cites Kansas Strike Case in Which He Told Troops Not To Interfere With Meetings.

By the Associated Press TOPEKA, Kans., July 30—Gov. Alf M. Landon, who said labor unions have the right to demands by lawful and proper means, has elaborated on stand taken next month at the Wesleyan University's classes, according to the Associated Press.

The Republican nominee's letter was in reply to a communication from the Socialist candidate for president in which Thomas, a former Marion man, asked for an elaboration of Landon's acceptance speech statement that employee freedom from compulsion means as I understand it entire freedom from coercion or intimidation by the employer and fellow employee or any other person.

By Fred A. Arnould

In my statement which you quote, Landon wrote there is nothing to suggest that I am in favor of infringing in any way the right of free speech or free assembly.

I am opposed to any such infringement. The workers have the right to meet among themselves or with others of their own choice to promote organization, with complete freedom from interference from anyone whatsoever. The workers should be fully protected in this right by the public authorities.

In his letter to Thomas Landon referred in a lead and the entire strike in Kansas of June and July, 1935.

I acceded to a request jointly proffered by the sheriff and prosecuting attorney of Cherokee county that I would bring to maintain order under Landon's administration. I instructed the sheriff of Cherokee county to maintain order in the public interest.

The car is owned by W. H. Carpenter of Howard, eight miles from Mt. Vernon and was stolen from the streets of the latter city the afternoon of July 14. Deputy Sheriff W. H. Willis reported to

Willis and Sheriff Bushay of Logan county went to Howard and Mt. Vernon yesterday and conferred with Mr. Carpenter. He had reported the theft of the car to Mt. Vernon police and the license number was broadcast over the state highway patrol radio system on July 10. Mr. Carpenter was located by authorities through a check up of the motor number on the machine after it was found on a county road two miles west of Green Camp late Tuesday.

The machine was discovered by T. H. Brumley of the Green Camp, Essex pike on a road bordering the rear of his farm. It had been stripped of its license plates and battery. A chromite tire cover on the rear of the car when it was stolen had been taken. The machine answers closely the description of the bandit car authorities say. Mr. Carpenter, a farmer, will come to Marion Saturday to recover the automobile.

Meanwhile, fingerprints taken from the windows and other parts of the car by City Patrolman L. E. Roordan were turned over to a state fingerprint expert who was in the city yesterday. A report as to whether they can be identified with any person with a criminal record is expected within a few days.

Ready to File Friday

City officials already had made arrangements to file their rate proposal with the commission Friday when the water company presented its appeal to the commission.

Collector Cachart explained the city had delayed filing the proposal because the ordinance setting up the proposed rates does not become effective until today.

Officials of the American Water Works Co. operator of the Marion Water Co., in a late discussion with city officials here a few weeks ago requested the company to garnish less than five per cent on its investment under the present rate whereas the utility commission permits a utility to earn up to six per cent.

BRUNDAGE REPLACES JAHNCKE AT BERLIN

New Orleans Sportsman Dropped from International Olympic Committee.

By the Associated Press BERLIN July 30—Ernest L. Jahncke of New Orleans was ousted from the international Olympic committee today and Avery Brundage, president of the American Olympic committee, was elected in his place.

Jahncke, who was assistant secretary of the navy during the administration of President Hoover, was dropped on the technical grounds that he failed to attend two consecutive meetings of the international committee.

The ousted of the New Orleans sportsman well known in yachting circles came several months after he opposed the United States participation in the Olympic games because they were to be held in Germany.

Brundage was president of the Amateur Athletic Union of the United States six successive years. He retired from office at the end of 1934.

History Repeats?

Rightfully the spark of truth has been given to the foolishness of the present struggle in contrast to the uprisings which have occurred in the history of Spain. I profoundly affect the future of the country and perhaps in the course of events in Europe.

At the moment it is not clear whom victory will go although the government appears to be more than holding its own. Whichever side was history, making changes will be imminent.

If the right rebels triumph for instance a fascist dictatorship seems probable. Such a change is likely to be accompanied by more blood letting and vengeance purges than yet have marked the course of Italy and Germany in their histories. Feeling engendered has become too bitter to allow of half way measures.

On the other hand if the leftist government prevails it will be faced with a momentous decision. Looking back on history it will see the justification for moderation. It will recall the debacle of the moderate Kerensky and the overthrow of the mild German Social Democrats. It will realize probably that its own moderation permitted its opponents to gather strength for rebellion. If the Popular Front can read the lessons of history it will endeavor to bring diverse elements if it can into the fold. This will become too bitter to allow of half way measures.

Capitalism or communism appears to be on the horizon for Spain. If either form of government establishes itself and destroys opposition the country might enjoy more stability than it has for many years. Freedom however is likely to be the price. Spaniards will have to pay for stability.

Social Security

Social security means different things to different persons.

It means a plan whereby men eventually will be able to quit worrying about pauperism.

It means a gigantic financial operation which is being undertaken by a reckless government without sufficient understanding and preparation.

It means a tremendous step in being taken into the mists or the spiderweb of socialization.

The whole thing depends on how you look at it.

There is one particular part of social security however which is bound to look the same to everybody. The social security board eager to get as well entrenched as possible in view of increasing certainty that it is attempting an impossible thing has started to choose sites for 300 regional offices.

From these offices it will construct a census to lay the groundwork for an enormous file of Americans eligible for benefits. Each one then will be given a number which will entitle him to attention at the hands of what eventually will be the most populous and most important department of the United States government with hundreds of thousands of busy bureaucrats keeping track of a fund which it is estimated will reach the \$10,000,000,000 mark by 1942. Bureaucracy in 1936 is only the beginning.

Rubbernecking

Way back when the small town visitor to the big city was the pure American rubberneck. As legend has it he would come to catch a breath of the metropolis. He would walk around the busy streets and sit on the ground if he wanted to get a view of their home on Clinton Park and Marion.

Nowadays especially if from the coast or with plenty of experience there is with another kind of rubberneck. He is a dandy who wants to see the rubbernecking as this has no to his eyes in search of the latest news he covets as an Ohio carman.

A range of human beings are as tickled as fascinated by the stories of their strange how that queer breed of men as romances look in the heaven for inspiration and for understanding of the universe. Strange how the romances are for and for and knowledge crab them to predict to the minute when certain phenomena will occur blocks of me to see.

He is come with the bright and new to the car—a mere infant 10 miles away—August 4. As the thousand of new facts to the arms of come gazers look to the sea that night, many will be humbled for the first time by the vastness of it all. As they are the luminous wealth of new wealth across the sky there—right before them up there there are binding light, heat and some confusion. The

Spleen
Many believe that one could not live without a spleen. This is not true. Indeed, one of my readers writes: "I have a friend whose spleen was removed three years ago. He is still living. Please tell me about the spleen and how it works."

To answer these questions with any degree of satisfaction, it is necessary to go somewhat in detail about this organ. The spleen is one of the great glands of the body. It lies in the left side of the abdomen just below the lower end of the stomach. Normally, the spleen is about the size of a small fist and in shape not unlike a magnified coffee bean. It is dark bluish red in color and is enclosed in a smooth and glistening capsule.

For centuries it was known about the spleen. But all this time it was believed to be indispensable that one could not live without it. For this reason it was never removed by the surgeon, no matter how advanced might be its inflammations or infections.

We know now that the spleen aids in the manufacture of red blood cells. Likewise, it helps to form hemoglobin, the coloring matter of the blood. Fortunately, the liver and bone marrow have a part in the functions so that they take over the work if the spleen becomes diseased.

It is now known to be relatively safe to remove a diseased spleen. Splenectomy, which is the name of this operation, is no longer a rare surgical procedure. In fact, it is often recommended as a cure for Banti's disease, so called.

In this strange disease the spleen becomes unusually large. In spite of every measure and effort at control, it continues to grow larger.

It is used to be a hopeless ailment. Little encouragement could be offered its victims. Today great relief is obtained and in many instances complete cure follows the removal of the enlarged spleen. Of course, this organ is never removed unless it is diseased and your doctor must make the decision.

The Stars Say—
For Friday July 31

DESPITE CERTAIN small anxieties or perplexities this may prove to be an eventful day with a rather radical upheaval of affairs involving environs, interests and associates and having a very important and far-reaching effect on future life. There may be much excitement and commotion in connection with this abrupt and alluring program.

Those whose birthday it is may anticipate a year of sudden change and upheaval affecting the future. Its affairs, fortunes and destiny. It will be a very interesting, profitable and welcome change bringing personal gratification and happiness as well as business prestige probably in strange environs.

A child born on this day may be adventurous, romantic, original, inventive and independent in thought and action. He is apt to be personally popular and may attain prominence in the public eye. Notable nativity: H. P. Blavatsky, theosophist.

Cleveland Wins Doubleheader To Advance Half Game

TRIM SENATORS IN
TWO GAMES; GIANTS
DEFEAT CUBS, 7-2

Dodgers Hand Cards Worst
Beating of Year, 22-7, but
Lose Second Game

By the Associated Press
The National League eastern
forces a collective thorn in the
side of Bill Terry and his New
York Giants for years have turned
over a new leaf.

Instead of standing in the Giants
way, the eastern contingent is
helping the Ferrymen's current
climb by nuking the miserables of
the western leaders. The Cubs
Cardinals and Pirates.

In the past the Indians Dugout
and Press usually were easy pick-
ing for the westerners and then
up until the Giants turned on
the heat to whip the New Yorkers
and the hawks.

Things have been different since
the last western trip when the
Giants, after blowing up and sink-
ing 10 of the first division began
the climb back.

Carried over since the return
home, the combined eastern as-
sault has shot the Giants securely
into third place (dropped the 11)
rates into fourth and pushed the
New Yorkers a red-hot third to
the Cards in second.

The Giant themselves have been
leading the way. Fresh from a
two-out of three edge over the
Cardinals and three out of four
over the Reds, Terry and his boys
helped out a 7-2 victory over the
Cubs yesterday to pull up nearer
the Giv House gang and the Indians
leaders.

Burgess White hand had four hits
to lead the way as the Giants
clipped Bill Terry who went about
out in their last two meetings.

The Dodgers handled the Cards
their worst beating of the year
in the opener of a double
header and then fell short with a
late lancing rally to lose the night
cap, 6-4. Dutch Mordwek belted
two homers to save the St. Louis
club from complete humiliation.

The Reds also split losing the
nightcap to the Pirates 10-4 after
Denny MacArdle's nine hits pitched
win the first game, 3-1.

The Yankees torched off against De-
troit, pitching for the second
straight day and with Lou Gehrig
posting his 32nd homer of the year
not slugged on a 17-3 triumph.

Although the Yankee visitors
bank the Tigers out of the first
division, it didn't stop the Ameri-
can League lead of "mounders
row" from being split to 8-8
games by the twin victory of the
second place Indians over the
Washington Senators 11-0 and 6-6.

The Red Sox saw Pion Hoy
sell a shutout to tough to solve and
wound up on the short end of a
3-3 round against the Browns.

The White Sox with Sarge Cain
pitching tight ball in the pinches
against his old mates sent the
Athletes into the cellar and clinched
back into fourth place themselves
with a 7-5 edge.

Wichita maintained its league
leading pace by beating Louis-
ville in a night game 3 to 1.
Clay Haller won a close pitch-
ing duel from Jim Peterson. The
Brevo following five hits and
Peterson but four.

The Toledo Mud Hens whipped
Minneapolis 8 to 7 in the first
game of a night doubleheader but
succumbed to the seven hit pitch-
ing of Sullivan and Smoll in the
second 1 to 0. The second game
limped to seven innings by agree-
ment was settled on Johnson's
single and Harris' double in the
sixth.

Schwaderer Holds Losers to
Two Hits, F. Walters
Stars at Bat

The Marion Steam Shovel entry
in the All-S star night league went
into a tie for second place in the
league standings last night by
trouncing the K. of P. squad 9 to 0
in a game at Lincoln park.

The Diggers are now sharing first
place with the Axe Funeral home
team.

Schwaderer Shovel pitcher not
only held the K. of P. nine scoreless
but allowed them only two hits.
He struck out four batters and
walked out. Gamble started for
the Diggers but was driven from the
box in the fourth when replaced
by Art Amick.

F. Walters led off a three-run
scoring spree in the first inning
by tripling, scoring a few moments
later on an error. Ballinger the
next man up also tripled.

Walters, Ballinger and Pohler
were the leading hitters of the
game. Walters getting a triple
double and single out of four times
at bat. Ballinger drove out a triple
in the first and a single in the
third while Pohler registered two
hits a double and a single.

Arbogast and Cram snared the
two outs.

LOVE AFFAIRS OF FILM FOLK

Nursemaid Tells on Dr Thorpe Who Accuses Mary Astor of Having Had Lover

By the Associated Press
LOS ANGELES, Calif., July 30.—A dark and sordid story of Dr. Franklyn Thorpe, four-year marital lover, was set up today against his charge that Mrs. Astor, screen beauty, admitted having a lover named George, but not their divorce.

No sooner had the Hollywood physician fled than it began the action of a legal insurance than Nursemaid Nellie Richardson started her sensational disclosure from the witness stand.

An attorney for the Thorpes, four-year old daughter, Marilyn, Mrs. Richardson was called in Miss Astor's effort to regain the child's custody awarded to Dr. Thorpe when he divorced her 15 months ago. The divorce was obtained under the terms of a separation he agreed to, less than a week ago.

Read from Diary

Supporting the physician's charges that his ex-wife was a person of gross immoral conduct, he still gallantly defends his wife, Miss Astor, as his legal wife. In his diary, 1934:

"I love George and in fact I can do it to give him from a messy scandal. May I am having a gallant but maybe also I can do one nice thing in my life."

For the sake of peace and repose from all this emotionism I told him (Dr. Thorpe) I would do nothing at present. My main reason for saying that is quite honestly I want to be able to see George for the rest of his stay here without being all upset—I want to have the last few times of complete enjoyment him when he has left town I can start in again. I must go through with this."

Later on I can move to have the custody of (Marilyn) changed over to me. It would be very hard for him (Dr. Thorpe) to bring up an old affair again.

Nurse on Stand

To show that Dr. Thorpe's conduct since the divorce has not been guided to the best interests of the baby, Miss Astor's attorneys placed Nellie Richardson on the stand in the second session.

In swift conclusion, Miss Astor's attorney brought her around to the apparently amorous chapter of Dr. Thorpe's life. She peered through studded spectacles at three intimate photographs presented earlier in which the surgeon and a full-blown blonde are locked in close embrace.

Do you recognize that girl asked the attorney, Roland Rich Weller?

Yes that's Norma Taylor. Was she ever at the house while Dr. Thorpe the child and you were living there?

Oh yes several times. Many times rather.

Did she ever stay there all night?

Stayed all night. She usually did. The nurse replied in a chilly voice.

When she stayed overnight where did you find her in the morning?

In the bedroom upstairs. Was that the same bedroom Dr. Thorpe occupied?

Yes it was.

Now how many beds were in the doctor's room?

There were two.

And when you made them up in the morning were they both rumpled?

No only one was.

What was the condition of the linen in the bed?

Before she could reply, Judge Goodwin knighted out in quickly.

Oh come now space as that he said. Dr. Thorpe sitting between his two attorneys merely glowered.

Three Other Women

There were three other women too she said. She named them Miss Betty Gifford otherwise un-identified.

Mrs. Lillian Lawton Miles who was Dr. Thorpe's wife when he married Mary Astor, the star of *Madame Bovary*.

And a Mrs. Madge Scofield.

Weller posed the same set of questions about Miss Gifford, Mrs. Miles and Mrs. Scofield as he had about Miss Taylor.

The answers like the question were identical in each of the four cases.

Stayed overnight—one bed, sumptuous breakfast in bed—frequent occasions and so on.

SIX BLACK LEGION
SUSPECTS TRIED

By the Associated Press
DETROIT, July 30.—Waving a juve six men charged with kidnaping and slaying an 18-year-old steel worker—a Black Legion ensign—went on trial today before Judge Joseph A. Moynihan in circuit court.

The defendants, Frederick A. Gullif, Earl Angstrand, Charles King Thomas, Cox Harold Lawrence and Wilbur Robinson are accused of abducting and killing Robert A. Penland, of suburban Escors, for not attending meetings of the hooded night riders.

WALLACE DOUBTS
WEST WILL DRY UP

By the Associated Press
WASHINGTON, July 30.—The theory that drought may convert much of the farm belt into a desert is doubted by Secretary Wallace.

Asked at a press conference late yesterday whether he thought the area would become a land the secretary of agriculture smiled and shook his head negatively but added:

The dry years 1930, 1934 and 1936 make you want to keep your head down.

CORN SKYROCKETS IN FRANTIC TRADE

WOMAN FACES TERM FOR 'BONUS SLAYING'

Found Guilty of Manslaughter
in Death of Husband
After Shooting

By the Associated Press
CHICAGO, July 30.—Corn prices shot up 5 cents a bushel today, after release of a special bulletin of the department of agriculture indicating half the acreage in the nation's corn belt is in marketable condition, but the acreage was damaged by mid-July.

Frantic buying quieted after a fast start at the opening of the market. The futures were the highest of the year, and the cash market at September 1 was the highest since 1930.

Mr. Dixey, 34, without

returning to his late husband

or telling her of his

plan to kill him to

claim his bonus, left the

man's home without

warning him and made the

statement:

The wife of one of her and 11

men of the mob was yet

inhabited four hours and

40 minutes, a fast lecture was

delivered before returning the

man's daughter's verdict. The state

had demanded the death penalty

as one to 20 years of custodial

for manslaughter.

The woman who sat on the

jury could not remember

what happened after she left the

shotgun, with which her hus-

band was slain, told the leading

juror a minute in which he

had tried to have her ejected

from their home.

The man charged that she killed

him for himself and for

the five-year-old son. Harold, the man's

son, was expected to receive this

morning.

Mrs. Dixey closed her defense

with the testimony of Dr. George

Harding of Worthington that the

husband's mentality equal to that

of a 10-year-old child and was tem-

porarily insane when Dixey was

sent to death July 6.

THE LIBANGI PARTY, SEARCHING FOR TRADER BRENT, APPARENTLY BURNED DOWN MY SHACK—BUT WHY? AND WHY DID THEY CARRY OFF TIM?

I'LL HAVE TO RIDE BACK TO CHEF MOLOKO AND FORCE HIM TO RELEASE THE LAD

HELLO—WHAT'S MAKING MY HORSE WHINE?

THE ANIMAL CONTINUES TO CALL HIS MASTER

SO THIS IS WHAT'S BOthering him

SO THE JEEP DIDN'T LIE, AFTER ALL

YA KNOW, WIMPY, SOMETIMES I GETS A FEELIN THAT ME FATHER AINT DEAD. I WISHT I KNEW

THAT'S EASY—WHY DON'T YOU ASK THE JEEP?

I NEVER, THOUGHT OF THAT! AHY, EUGENE—

WELL, ASK HIM. IF I FINDS OUT FOR SURE HE'S DEAD, I'LL FEEL ARFUL-AN! IF HE'S ALIVE, I'LL GET SO EXCITED, I'LL FANT

AHOY!! A NEW STORY IS COMING UP SOON. IN FACT, IT WILL BEGIN NEXT WEEK. EXCUSE OUR CONCEIT, BUT IT'S GOING TO BE A "WOW"! AND THE JEEP WILL PLAY AN IMPORTANT PART.

CAN YOU SEE MAC TILLIE?

YES, POOR BOY—HE'S JUST SITTING ON THE BEACH—I'D LIKE TO SAY A FEW TENDER WORDS TO HIM

WHAT TILLIE SAW

IT ISN'T TENDER WORDS MAC WANTS—HE NEEDS A TENDER STEAK ABOUT NOW.

YOU KNOW, MAC BET HE COULD STAY ON DEVIL'S ISLAND A MONTH WITH NOTHING BUT A BATHING-SUIT AND A POCKET-KNIFE—

MORE PAN-CAKES? WHY, EZRA, THIS WILL MAKE THIRTY YOU'VE EATEN! HOW DO YOU DO IT?

VERY SIMPLE, JUDY. EVERY SO OFTEN I LET MY BELT OUT ANOTHER NOTCH AND THERE YOU ARE!

GUESS MY EYES WERE BIGGER THAN MY STOMACH—I COULD ONLY EAT 86 OF THEM!

EZRA'S BEEN HANGING AROUND STABLES SO LONG HE EATS LIKE A HORSE, HIMSELF!

NO HORSE EVER HAD HIS TERRIBLE TABLE MANNERS, JUDY—

IF SHE CAN ALWAYS MAKE PANCAKES AS GOOD AS THAT I WANNA MARRY HER. SHE AIN'T PRETTY, BUT I'LL OVERLOOK THAT! A BEAUTY IS ONLY A BEAUTY, BUT A GOOD COOK IS A FIND!

THANK YOU, PRINCESS, I'M FEELING MUCH BETTER TODAY—it won't be long now before I'll be able to eat one of your NICE HAMBURGER SANDWICHES

I GUESS YOU THINK I'M TERRIBLE DUMB—CAUSE I WENT AND MADE YOU A HAMBURGER SANDWICH YESTERDAY—I THOUGHT IT WOULD MAKE YOU HEALTHY—THE NURSE SAID IT MIGHT KILL YOU DEAD

DON'T WORRY—THAT HAMBURGER WAS THE KIND OF MEDICINE I NEEDED—JUST TO KNOW SOMEONE WAS THINKING ABOUT ME, DID ME MORE GOOD THAN AN' OCEAN FULL OF HOT WATER THE DOCTORS CALL CHICKEN BROTH

HONEST, I THINK YOU MUST BE THE NICEST MAN THERE IS—EVEN WHEN I DO SOMETHING DUMB YOU DON'T GET MAD AT ME
